

Medi-Refine Aesthetics

Model Policy

Our Policy

Model appointments allow Medi-Refine Aesthetics to demonstrate treatments, create educational or marketing content, introduce selected techniques or services and offer treatments at a reduced model rate. Unless specifically stated otherwise before your appointment, all model treatments will be assessed and performed by Medi-Refine Aesthetics.

Model Pricing

Model appointments may be offered at a reduced rate in exchange for participation as a treatment model. The model price applies only to the treatment, product quantity and areas agreed at booking and cannot be used with another offer, discount or promotion unless otherwise stated.

Booking Fee

A £50 non-refundable booking fee is required before a model appointment can be confirmed. It will be deducted from the remaining treatment balance unless otherwise stated. The fee remains non-refundable if you cancel, fail to attend or are unable to proceed because of a change in circumstances or failure to meet suitability criteria.

Photography & Content

As a model, you should expect photographs and/or video footage to be taken before, during and after treatment. This may include before-and-after images, treatment footage, educational content, social media, website and marketing material. Appropriate consent will be obtained for identifiable images intended for public marketing use.

Treatment Plan

Treatment is based on clinical assessment, suitability, anatomy and safety. The exact treatment or amount of product may therefore differ from initial expectations. No treatment, technique, product quantity or result can be guaranteed. Medi-Refine Aesthetics may amend or decline treatment where it is not considered appropriate or safe.

Healing, Swelling & Bruising

Healing is a normal and expected part of aesthetic treatment. Temporary swelling, bruising, tenderness, lumps, bumps, firmness or asymmetry may occur depending on the treatment. Early results are not the final outcome and the appropriate healing and integration period must be allowed before results are assessed.

Reviews & Additional Treatment

Where clinically appropriate, you may be invited to attend a review. A model appointment does not automatically include complimentary additional product, correction, top-up or further treatment. Any additional treatment requested or clinically recommended after healing may be chargeable at the applicable rate.

Appointment Times

Model appointments may take longer than standard appointments due to photography, filming, consultation, treatment planning or educational discussion. Please allow sufficient time and do not attend if you need to leave by a strict time.

Cancellations & No-Shows

Model spaces are limited and reserved specifically for the selected individual. Late cancellations, repeated rearrangements or non-attendance may affect eligibility for future model appointments and may be subject to the Medi-Refine Aesthetics Cancellation Policy. The £50 booking fee remains non-refundable.

Suitability for Treatment

Selection as a model does not guarantee treatment will proceed. All models must complete the required consultation, medical history and consent documentation and meet the same clinical suitability requirements as any other client. Safety and wellbeing will always take priority over completing a model treatment or creating content.

Expectations & Results

Aesthetic treatments aim to enhance, refine or restore rather than create perfection. Results vary between individuals due to anatomy, metabolism, lifestyle and healing response. Reference photographs may be used to discuss goals, but another person's result cannot be replicated or guaranteed.

Practitioner

Unless clearly stated otherwise when the model opportunity is advertised or booked, your consultation, assessment and treatment will be undertaken by Medi-Refine Aesthetics. If another appropriately trained practitioner will be involved, this will be made clear beforehand.

Agreement

By accepting and attending a model appointment, you confirm that you understand the nature of a model treatment and agree to this Model Policy alongside Medi-Refine Aesthetics' standard consent, aftercare, cancellation and clinic policies. Model pricing does not reduce the standard of care provided; all treatments remain subject to consultation, consent, clinical assessment and professional judgement.
